The Trust's Ethics and Risk Management Continuing Education Workshops and Webinars are widely recognized for their timely content and value to psychologists, particularly those insured through The Trust Sponsored Professional Liability Program. You can participate in this webinar from the comfort of your own space. Completion earns you 6 CE credits and makes you eligible for a 15% savings on your Trust Sponsored Professional Liability Insurance premium for two consecutive years commencing with your next policy renewal.

How This Webinar Works

This six-credit-hour "SIMULIVE" webinar enables participants to earn the same CE credit and 15% insurance premium reduction afforded those physically attending a workshop. It eliminates costly travel, hotel stays, and time away from home. The webinar consists of a prerecorded and streamed presentation followed by a one-hour online Q&A session with the webinar presenter. Participants must be present during the entire webinar (verification codes will be flashed onscreen at random times throughout the presentation). There will be a 15-minute morning break, a 1-hour lunch break, and a 15-minute afternoon break during the webcast.

Why You Need to Attend

This is an opportunity to focus on ethical and risk management issues as they relate to the broader changes in psychological practice that The Trust's Risk Managers and other observers believe are and will be generated by the Affordable Care Act (ACA). This training event will also provide an updated focus on the changes in practice that result from the digital information revolution.
