

Nemours/Alfred I. duPont Hospital for Children  
is pleased to announce the inaugural

# DREAM IPC CONFERENCE

Developing and REsearching Advanced Models of Integrated Primary Care

September 8 – 9, 2017

Chase Center on the Riverfront | Wilmington, DE

The mission of the conference is to have a platform in which innovative clinical practices and research in the field of pediatric integrated primary care can be shared with other psychologists, behavioral health providers (e.g., social workers, counselors), and trainees interested in IPC.

Programming will include two days of stimulating talks, expert panels, and breakout discussions covering a variety of topics including, but not limited to, advanced applications of IPC, history, current landscape, and future directions of IPC, sustainable business models, ethical dilemmas, diversity issues, outcome research, and interdisciplinary training.

**Confirmed speakers: Drs. Rahil Briggs, Joe Evans, Paul Robins, & Doug Tynan**

A poster session and student events will be included.

CE credits will be offered. Student registration rates will be available.
